

# T-SERIES

## AGRICO T-SERIES RESET RIPPERS

### Let nothing stop you.

The T-series is Agrico's proven and popular reset ripper – a strong and efficient ripper for deep tillage and thorough and fast soil preparation. Break up soils at various working depths for the best start to the season.

### The best rippers in their class

- The Agrico T-series ripper is a proven and popular reset ripper.
- Automatic reset without having to reduce speed or raise the implement. Ideal for soils with large embedded rocks.
- Efficient tillage offers one of the most consistent soil profiles on the market.
- Available in a variety of sizes in 3-point mounted and trailed configurations.
- Less fuel is used due to low soil friction and efficient breakaway action
- The tines are manufactured from heavy-duty Hardox steel for strength, reduced wear and an extended lifespan.
- Elegant and cost-effective geometry assures excellent debris flow and resistance to plugging.
- The only implement in its class with rebound shock absorbers.
- Equipped with the proven straight ripper shares.
- The shares are securely bolted to the tines, avoiding inadvertent loss of shares.
- A variety of shares and v-blades are available.
- Comes with rollers for the seedbed.

**AGRICO**  
More than 100 years of service

## ELEGANT DESIGN

The T-series has one of the most consistent soil profile of all rippers on the market and demonstrates increased control and optimal operation.

## SPECIFICATIONS

MODEL	T800	T1000	T1250
Power requirement per tine (kW)	± 16	± 25	± 40 - 60
Standard tine spacing (mm)	400	500	500
Frame clearance (mm)	800	1000	1250
Ideal working depth (mm)	250 - 400	400 - 630	600 - 800
Breakaway force (N and kg)	5 600/560	7 600/760	12 500/1 250

“ The ripper is better than any imported alternative.
